

"I Wish We"

Written by David Ashley Trent

There was a raging wind
that blew into town today
It blew the people down today
It took 'em by surprise
There was a hurricane
That came without a warning
In the hour before the morning
Like a thief in the night
And people I knew got left behind
I wish we all would be prepared
To meet the lamb up in the air
I wish we, I wish we, I wish we all would be
And I wish we all would live our lives
Like time was never on our side
I wish we, I wish we, I wish we all would be
And I do procrastinate
A little more than I am proud to say
I'm gonna make a change one of these days
When I get the time
But this ain't the same you see
Brother, this is an emergency
You gotta treat it with some urgency
And make up your mind
And please, God, don't be left behind
I wish we all would be prepared
To meet the lamb up in the air
I wish we, I wish we, I wish we all would be
And I wish we all would live our lives
Like time was never on our side
I wish we, I wish we, I wish we all would be
Ready for Jesus on the day He returns
To meet the maker of heaven and earth
To spend forever as a child of the king
All you got to do is believe
I wish we all would be prepared
To meet the lamb up in the air
I wish we, I wish we, I wish we all would be
I wish we all would be prepared
To meet the lamb up in the air
I wish we, I wish we, I wish we all would be
And I wish we all would live our lives
Like time was never on our side
I wish we, I wish we, I wish we all would be
